ABSTRACT

A reference guide to laws, rules, and regulations that govern nursing practice in New York State is presented. In addition to identifying requirements/procedures for obtaining licensure and first registration as a licensed practical nurse and registered professional nurse, general provisions of Title VIII of the Education Law are covered, along with state management, professional misconduct, and unauthorized acts. Regulations of the Commissioner of Education are also provided, along with an application form for license and first registration, a certification form of nursing education, a certification form of licensure or licensing examination results, a certification form of professional experience, and an application for limited permit. A list by state region and counties is provided of programs of professional nursing registered by the state education department, including those of the following types: associate, baccalaureate, master's, doctoral, diploma, and nurse practitioner. Included are the college's address, and the name and phone number of the program director. For programs at the master's and doctoral levels, information is also provided on degrees/certification awarded, concentrations, and functional areas covered in the curricula. (SW)

PROFESSIONAL REGULATION IN NEW YORK STATE

State regulation in 31 fields of professional practice, including issuance of licenses and enforcement of rules of professional conduct, is vested in the Board of Regents in New York. Medicine was the first profession regulated by the Board of Regents with the establishment of licensure of physicians in 1892.

Practice of a profession is a public trust, earned through educational preparation, experience, passing rigorous examinations, and commitment on the part of the practitioner to public service. The professional carries out that trust in accordance with ethical standards developed through years – often decades and even centuries – of the best professional traditions, and in accordance with state law and regulations. Professional practitioners are urged to be always conscious of the very special obligations of public service and of ethical conduct that the privilege of licensure creates.

The New York system of professional regulation is unique in that it places a citizen body, the Board of Regents, which is responsible for education at all levels, in charge of the education, licensing and discipline of the professions. It is also unique in providing for boards to advise the Commissioner and the Regents on all matters relating to licensure and discipline. The boards, each aided by an Executive Secretary appointed by the Regents, provide communication links to the professions and the public. The boards make recommendations on policy and on disciplinary issues and provide advice to the Department and the Board of Regents.

Under policy established by the Board of Regents the Title VIII professions are administered through the following units of the Office of the Professions in the Office of Higher and Professional Education.

Professional Education and Professional Boards

The Department monitors programs of professional education according to standards for registration (accreditation) established by the Board of Regents. Specifically, through Board Executive Secretaries and consultants, the Department evaluates proposed new programs as well as currently registered programs in some 300 institutions that prepare individuals for the practice of one or more professions. Information concerning registered programs, including licensure-qualifying programs in the professions, may be obtained by contacting the appropriate Board office.

Twenty state boards for the professions are appointed by the Board of Regents to advise the Department and the Regents on matters relating to professional licensure, practice and conduct. The law provides that these boards be comprised of a number of licensed professionals and one or more "public members," consumers of the services provided by the profession concerned. Some 300 persons serve on the twenty boards.

Minority Access to the Licensed Professions

The regents are committed to the premise that equal educational opportunity in programs that lead to licensure is a right of all New York State residents. Despite progress in achieving greater access for minorities and disadvantaged populations, there still exists a severe underrepresentation of minorities in the licensed professions. To correct this problem, the Regents and the State Education Department endorse a coordinated and comprehensive effort involving the sustained efforts of the educational system, professional boards, professional associations and societies, government, industry, parent groups, and individual professionals. Any persons or organizations interested in learning more about or participating in state and local projects may contact the Executive Secretary for the State Board of the involved profession or the Department's Minority Professional Education Coordinator.

Professional Licensing Services

The Division of Professional Licensing Services of the State Education Department issues more than 50 different authorizations to practice in the 31 professions licensed or otherwise credentialed by the Department and Board of Regents. In cooperation with the Executive Secretary of the State Board in each licensed profession, the Division of Professional Licensing Services is responsible for enforcing licensing rules and regulations and assuring that the standards set by law are met prior to licensure.

The Division also administers the registration system for licensed professionals practicing in the State. In order to practice or use a professional title in New York, a professional must be registered as well as licensed. The registration period is specific for each profession and expires for all members of that profession on the date indicated on each practitioner's registration certificate. It is the responsibility of any professional practicing in New York to maintain current registration. It is also the professional's responsibility to notify the Department di-

rectly of any change of address or of name. Notifying the local post office does not change the records on file in the State Education Department.

Professional Discipline

A license permitting an individual to practice in New York State is in effect for the lifetime of the holder unless use of the license is affected by a finding of professional misconduct. Professional misconduct is defined in Section 6509, Education Law, and in Part 29, Rules of the Board of Regents. It is the responsibility of each professional to be aware of the laws and regulations covering his or her profession. Copies of statute and rules are included in this handbook.

The Office of Professional Discipline of the State Education Department enforces standards of professional conduct in all professions, except that initial enforcement action in medicine is vested in the Office of Professional Medical Conduct, Department of Health. Any person who suspects or has knowledge of professional misconduct should report the information to the appropriate office. (Physicians are required by law to make such reports; failing to do so is, in itself, misconduct.) When either office discovers a possible violation of standards, it starts professional misconduct proceedings. Final disciplinary actions in all professions are taken by the Board of Regents. If the Regents decide that a licensed person has acted unprofessionally, they may suspend or revoke the authorization to practice. The Regents may also impose fines and other appropriate penalties.

Professional misconduct includes practicing fraudulently, negligently, or incompetently; practicing while being impaired by alcohol, drugs, or mental disability; being convicted of a crime; and similar serious matters. Some examples of misconduct are: offering or receiving a fee to or from a third party, fee splitting, behaving in a way that indicates moral unfitness, filing false reports, practicing beyond the scope permitted by law, performing services unauthorized by a patient or client, physically abusing a patient, not keeping proper records, ordering excessive tests or reglecting a patient in need of immediate care.

Fee disagreements do not represent misconduct, but double billing or other fraudulent billing or charging for unnecessary services, tests or procedures does constitute misconduct.

Telephone calls or letters reporting professional misconduct will be treated confidentially.

To report misconduct for professions other than medicine, write the New York State Education Department, Office of Professional Discipline, 622 Third Avenue, New York, N.Y. 10017. Telephone: 212-557-2100.

III. FEE INFORMATION

A. Fee Schedule for Services:

	Registered Nursing	Practical Nursing
	Total	*Total*
Licensure by exam in New York State including 1st registration	$95	$95
Licensure without exam in New York State & including 1st registration	70	70
Limited Permits	20	20
Certification of New York State exam results and licensure status to another authority	20	20

A check or money order for the appropriate fee amount must be made payable to the New York State Education Department and mailed with the appropriate form to Fee Section, Division of Professional Licensing Services, State Education Department, Cultural Education Center, Albany, New York 12230. *PLEASE NOTE*: Payment submitted from outside the United States should be made payable by check or draft on a United States Bank and in United States currency. Payments submitted in any other form will not be accepted and will be returned.

B. Fee Refunds:

"Applicants for professional licenses not receiving such licenses may be granted partial refunds not exceeding fifty percent of the fee paid to the Department unless they have failed the examination for such licenses, in which case such applicants may not receive a refund." Also, should you decide to seek New York State licensure at a later date, you will be considered as a new applicant. As a new applicant, you will be required to pay the *full* licensure and registration fees in effect at that time and to meet the licensure requirements in place at that time. Requests for refunds of fees paid to the Department must be made in writing and are subject to the following restrictions:

1. if the applicant withdraws application for license provided the New York State licensing examination has not been taken.

2. if the applicant withdraws application for a limited permit due to established ineligibility or prior to the effective date of issuance.

C. **Confirmation of Newly Issued Licenses:**

When eligible candidates are approved for licensure by the Department, a license number and effective date of licensure are promptly assigned. Approved candidates become legally licensed and entitled to practice in New York State as of that date. The first written confirmation of licensure by the department is the registration certificates mailed to new licensees. Registration certificates are usually mailed within two-three weeks following the licensure date. Licensure candidates who have reason to believe they have fully met *all* requirements for licensure are welcome to use the Division's licensure and registration verification services by telephoning 800/342-3729 (toll free – in state). If a license number has been issued and the effective date of licensure has occurred, the licensure will be confirmed by telephone.

This limited verification service is not able to provide prelicensure status information. Licensure candidates are requested not to use this telephone number until they are certain of imminent licensure to avoid overloading this limited convenience.

D. **The First Registration Period:**

The established triennial registration periods for Nursing are established by law and are as follows:

Registered	September 1, 1983 – August 31, 1986
Professional	September 1, 1986 – August 31, 1989
Nursing	September 1, 1989 – August 31, 1992
Licensed	September 1, 1984 – August 31, 1987
Practical	September 1, 1987 – August 31, 1990
Nursing	September 1, 1990 – August 31, 1993

The fee for the first registration provides for registration of new licenses and normally remains valid through the expiration date of the registration period in place at the date of licensure. Those persons licensed during the final four months of an established registration period will automatically be registered for the succeeding period as well without an additional fee. Hence, the duration of initial registration may range from a minimum of four months and one day to a maximum of forty months.

IV. LIMITED PERMITS

A. **Practice Authorization:**

1. The limited permit authorizes the holder to practice nursing only under the supervision of a registered professional nurse licensed and currently registered in this state;

2. Entitles the holder to practice nursing only for the New York State employer endorsing the permit application;

3. Expires one year from the date of issuance or upon notice to the applicant that the application for license has been denied; or *ten days after notification to the applicant of failure on the professional licensing examination, whichever shall come first.* That is; if the applicant does not fail, the limited permit does not expire unless the one year has elapsed.

4. Once issued, the expiration date of a limited permit may not be adjusted. Hence, it is very important that the application not be filed until the applicant is available for work.

B. **Eligibility Requirements:**

1. General

The application for a limited permit may be obtained from the Division of Professional Licensing Services. The application and fee for a limited permit should be submitted not less than *four weeks* before the applicant is ready to begin employment. *A limited permit may be issued after:* (a) all the application forms for license; (b) the application form for the limited permit; and (c) the required fees are received by the department: (d) the good moral character requirement has been established; (e) a CGFNS certificate has been filed by the foreign educated applicant, (requirement applies to RN limited permits only), and (f) after eligibility for the permit has been determined by the department.

An applicant may not begin practice until the limited permit has been issued. Issuance can be verified by receipt of either the applicant's or employer's copy of the limited permit document.

If a limited permit expires while a candidate is awaiting the results of the licensing examination, *the permit continues in effect until 10 days after the results of the licensing examination are mailed to the candidate.*

2. Registered Professional Nursing

   A candidate who has applied for a New York State license and first registration and paid the required fee may be issued a limited permit to practice while fulfilling licensure requirements. A candidate who completed a nursing program outside the United States and its territories must submit a certificate issued by the Commission on Graduates of Foreign Nursing Schools (CGFNS) before the permit will be issued.

While practicing during these 90 days, the graduate must be under the supervision of a registered professional nurse who is licensed and currently registered in this state. Candidates entering the practical nursing licensing examination on the basis of equivalent preparation (see page) are not eligible for the exemption and *must hold* the permit when employed.

D. **Changes of employment or multiple work sites while holding limited permit:**

The nurse who wishes to change or have multiple employers should take the employee's copy of the limited permit to the new or additional employer. The new employer signs the back of the limited permit which the nurse then sends to the Division of Professional Licensing Services. The Division of Professional Licensing Services will then adjust the permit and send the new copy to the permittee. The nurse *may not begin* practice at the new employing agency until the adjusted limited permit has been issued with the new employer's name. Issuance can be verified by receipt of either the applicant's or new employer's copy of the limited permit change of employment form. The expiration date will be the same.

§6510. Proceedings in cases of professional misconduct

In cases of professional misconduct the proceedings shall be as follows:

1. Preliminary procedures.

   a. Complaint. A complaint of a licensee's professional misconduct may be made by any person to the education department.

   b. Investigation. The department shall investigate each complaint which alleges conduct constituting professional misconduct. The results of the investigation shall be referred to the professional conduct officer designated by the board of regents pursuant to section sixty-five hundred six of this article. If such officer decides that there is not substantial evidence of professional misconduct or that further proceedings are not warranted, no further action shall be taken. If such officer, after consultation with a professional member of the applicable state board for the profession, determines that there is substantial evidence of professional misconduct, and that further proceedings are warranted, such proceedings shall be conducted pursuant to this section. If the complaint involves a question of professional expertise, then such officer may seek, and if so shall obtain, the concurrence of at least two members of a panel of three members of the applicable board.

   c. Charges. In all disciplinary proceedings other than those terminated by an administrative warning pursuant to paragraph a of subdivision two of this section, the department shall prepare the charges. The charges shall state the alleged professional misconduct and shall state concisely the material facts but not the evidence by which the charges are to be proved.

   d. Service of charges and of notice of hearing. A copy of the charges and notice of any hearing pursuant to subdivision two or three of this section shall be served on the licensee personally by the department at least fifteen days before the hearing. If personal service cannot be made after due diligence and such fact is certified under oath, a copy of the charges

and the notice of hearing shall be served by certified mail, return receipt requested to the licensee's last known address by the department at least twenty days before the hearing.

2. Expedited procedures.

a. Violations. Violations involving professional misconduct of a minor or technical nature may be resolved by expedited procedures as provided in paragraph b or c of this subdivision. For purposes of this subdivision, violations of a minor or technical nature shall include, but shall not be limited to, isolated instances of violations concerning professional advertising or record keeping, and other isolated violations which do not directly affect or impair the public health, welfare or safety. The board of regents shall make recommendations to the legislature on or before June first, nineteen hundred eighty-one, for the further definition of violations of a minor or technical nature. The initial instance of any violation of a minor or technical nature may be resolved by the issuance of an administrative warning pursuant to paragraph b of this subdivision. Subsequent instances of similar violations of a minor or technical nature within a period of three years may be resolved by the procedure set forth in paragraph c of this subdivision.

b. Administrative warning. If a professional conduct officer, after consultation with a professional member of the state board, determines that there is substantial evidence of professional misconduct but that it is an initial violation of a minor or technical nature which would not justify the imposition of a more severe disciplinary penalty, the matter may be terminated by the issuance of an administrative warning. Such warnings shall be confidential and shall not constitute an adjudication of guilt or be used as evidence that the licensee is guilty of the alleged misconduct. However, in the event of a further allegation of similar misconduct by the same licensee, the matter may be reopened and further proceedings instituted as provided in this section.

c. Determination of penalty on uncontested minor violations. If a professional conduct officer, after consultation with a professional member of the state board, determines that there is substantial evidence of a violation of a minor or technical nature, and of a nature justifying a penalty as specified in this paragraph, the department may prepare and serve charges either by personal service or by certified mail, return receipt requested. Such charges shall include a statement that unless an answer is received within twenty days denying the charges, the matter shall be referred to a violations committee consisting of five members of the state board for the profession, at least one of whom shall be a public representative for determination. The violations panel shall be appointed by the executive secretary of the state board. The licensee shall be given at least fifteen days notice of the time and place of the meeting of the violations committee and shall have the right to appear in person and by an attorney and to make a statement to the committee in mitigation or explanation of the misconduct. The department may appear and make a statement in support of its position. The violations committee may issue a censure and reprimand, and in addition, or in the alternative, may impose a fine not to exceed five hundred dollars for each specification of minor, or technical misconduct. If the fine is not paid within three months the matter may be reopened and shall be subject to the hearing and regents decision procedures of this section. The determination of the panel shall be final and shall not be subject to the regents decision procedures of this section. If an answer is filed denying the charges, the matter shall be processed as provided in subdivision three of this section.

d. Convictions of crimes or administrative violations. In cases of professional misconduct based solely upon a violation of subdivision five of section sixty-five hundred nine of this article, the professional conduct officer may prepare and serve the charges and may refer the matter directly to a regents review committee for its review and report of its findings, determination as to guilt, and recommendation as to the measure of discipline to be imposed. In such cases the notice of hearing shall state that the licensee may file a written answer or brief; that the licensee may appear personally before the regents review committee and may be represented by counsel, and the notice may contain such

other information as may be considered appropriate by the department. In lieu of referring the matter to the board of regents, the regents review committee may refer any such matter for further proceedings pursuant to paragraph b or c of this subdivision or subdivision three of this section.

3. Adversary proceedings. Contested disciplinary proceedings and other disciplinary proceedings and other disciplinary proceedings not resolved pursuant to subdivision two of this section shall be tried before a hearing panel of the appropriate state board as provided in this subdivision.

a. Notice of hearing. The department shall set the time and place of the hearing and shall prepare the notice of hearing. The notice of hearing shall state (1) the time and place of the hearing, (2) that the licensee may file a written answer to the charges prior to the hearing, (3) that the licensee may appear personally at the hearing and may be represented by counsel, (4) that the licensee shall have the right to produce witnesses and evidence in his behalf, to cross-examine witnesses and examine evidence produced against him, and to issue subpoenas in accordance with the provisions of the civil practice law and rules, (5) that a stenographic record of the hearing will be made, and (6) such other information as may be considered appropriate by the department.

b. Hearing panel. The hearing shall be conducted by a panel of five or more members of the applicable state board for the profession, at least one of whom shall be a public representative. The executive secretary for the applicable state board shall appoint the panel and shall designate its chairperson. In addition to said panel members, the department shall designate an administrative officer, admitted to practice as an attorney in the state of New York, who shall have the authority to rule on all motions, procedures and other legal objections and shall draft a report for the hearing panel which shall be subject to the approval of and signature by the panel chairperson on behalf of the panel. The administrative officer shall not be entitled to a vote.

c. Conduct of hearing. The evidence in support of the charges shall be presented by an attorney for the department. The licensee shall have the rights required to be stated in the notice of hearing. The panel shall not be bound by the rules of evidence, but its determination of guilt shall be based on substantial legal evidence. A hearing which has been initiated shall not be discontinued because of the death or incapacity to serve of one member of the hearing panel.

d. Results of hearing. The hearing panel shall render a written report which shall include (1) findings of fact, (2) a determination of guilty or not guilty on each charge, and (3) in the event of a determination of guilty, a recommendation of the penalty to be imposed. For the panel to make a determination of guilty, a minimum of four of the voting members of the panel must vote for such a determination. A copy of the report of the hearing panel shall be transmitted to the licensee.

4. Regents decision procedures.

a. Regents review committee. The transcript and report of the hearing panel shall be reviewed at a meeting by a regents review committee appointed by the board of regents. The regents review committee shall consist of three members, at least one of whom shall be a regent.

b. Regents review committee meetings. The review shall be based on the transcript and the report of the hearing panel. The licensee may appear at the meeting, and the regents review committee may require the licensee to appear. The licensee may be represented by counsel. The department shall notify the licensee at least seven days before the meeting (1) of the time and place of the meeting, (2) of his right to appear, (3) of his right to be represented by counsel, (4) whether or not he is required to appear, and (5) of such other information as may be considered appropriate. After the meeting, the regents review committee shall transmit a written report of its review to the board of regents. In cases referred directly to the regents review committee pursuant to paragraph d of subdivision two of this section, the review shall be based upon the charges, the documentary evidence submitted by the department, and any answer, affidavits or brief the licensee may wish to submit.

c. Regents decision and order. The board of regents (1) shall consider the transcript, the report of the hearing panel, and the report of the regents review committee, (2) shall decide whether the licensee is guilty or not guilty on each charge, (3) shall decide what penalties, if any, to impose as prescribed in section sixty-five hundred eleven of this article, and (4) shall issue an order to carry out its decisions. Such decisions shall require the affirmative vote of a majority of the members of the board of regents. If the board of regents disagrees with the hearing panel's determination of not guilty, it shall remand the matter to the original panel for reconsideration or to a new panel for a new hearing. The panel's determination of not guilty on reconsideration or a new hearing shall be final. The order shall be served upon the licensee personally or by certified mail to the licensee's last known address and such service shall be effective as of the date of the personal service or five days after mailing by certified mail. The licensee shall deliver to the department the license and registration certificate which has been revoked, annulled, suspended, or surrendered within five days after the effective date of the service of the order. If the license or registration certificate is lost, misplaced or its whereabouts is otherwise unknown, the licensee shall submit an affidavit to that effect, and shall deliver such license or certificate to the department when located.

5. Court review procedures. The decisions of the board of regents may be reviewed pursuant to the proceedings under article seventy-eight of the civil practice law and rules. Such proceedings shall be returnable before the appellate division of the third judicial department, and such decisions shall not be stayed or enjoined except upon application to such appellate division after notice to the department and to the attorney general and upon a showing that the petitioner has a substantial likelihood of success.

6. The provisions of subdivisions one through four of this section shall not be applicable to proceedings in cases of professional misconduct involving the medical profession.

7. Notwithstanding any other provisions of the law, persons who assist the department as consultants or expert witnesses in the investigation or prosecution of alleged professional misconduct, licensure matters, restoration proceedings, or criminal prosecutions for unauthorized practice, shall not be liable for damages in any civil action or proceeding as a result of such assistance, except upon proof of actual malice. The attorney general shall defend such persons in any such action or proceedings, in accordance with section seventeen of the public officers law.

8. The files of the department relating to the investigation of possible instances of professional misconduct, or the unlawful practice of any profession licensed by the board of regents, or the unlawful use of a professional title or the moral fitness of an applicant for a professional license or permit, shall be confidential and not subject to disclosure at the request of any person, except upon the order of a court in a pending action or proceeding. The provisions of this subdivision shall not apply to documents introduced in evidence at a hearing held pursuant to this chapter and shall not prevent the department from sharing information concerning investigations with other duly authorized public agencies responsible for professional regulation or criminal prosecution.

§6510a. Proceedings in cases of professional misconduct involing the medical profession

1. Prehearing procedures, hearing procedures and summary action procedures. Prehearing procedures, hearing procedures and summary action procedures in cases of professional misconduct involving the medical profession shall be conducted pursuant to the provisions of Title II-A of article two of the public health law.

Within sixty days of the transfer of a case of professional misconduct involving the medical profession by the commissioner of health pursuant to section two hundred thirty of the public health law, the board of regents (a) shall consider the transcript, exhibits and other evidence, if any, the findings, conclusions and recommendation of the committee on professional misconduct and the recommendation of the commissioner of health, (b) shall decide whether the licensee is guilty or not guilty on each charge, (c) shall decide what penalties, if any, to impose as prescribed in section sixty-five hundred eleven of this article, and (d) shall issue an order to carry out its decisions. Such decisions shall require the affirmative vote of a majority of the members of the board.

3. Time limitations.

a. No failure to comply with a provision of this section requiring that a specified action shall be taken within a specified period of time shall affect the validity of the action taken.

(b) The provisions of this Part shall apply to admission to the licensing examination and to the issuance of licenses in each of the professions supervised by the Board of Regents except as may otherwise be provided in this Subchapter with respect to specific professions.

59.2 Education requirements. An applicant for a professional license shall satisfy all education requirements before being admitted to a professional licensing examination. Education requirements for a professional license shall include any preprofessional education or experience required as a prerequisite for admission to a registered program of professional education. The department, in its discretion, may accept in satisfaction of a professional education requirement the completion of an approved or registered program or a program accredited by a professional accreditation organization acceptable to the department. The department, in its discretion, may also accept graduation by a transfer student from such a program provided such student has completed not less than the final year of professional education in such program subsequent to the date of approval, registration or accreditation of the program and approval of the accrediting organization by the department.

59.3 English proficiency requirement. An applicant for licensure whose application is based upon credit granted for the completion of courses of study in a country where English is not the principal language spoken shall demonstrate proficiency in English by passing an examination in English proficiency acceptable to the department or by passing a licensing examination acceptable to the department given in English.

59.4 Citizenship or immigration status requirements. In those professions where citizenship or immigration status is required for licensure, an applicant shall submit evidence satisfactory to the department of compliance with such requirement.

59.5 Professional examinations. (a) The department may develop its own examinations or may select in whole or in part examinations developed or administered by other organizations. Unless specifically authorized by the department, no examination shall be deemed acceptable which has been used in its entirety during the five years previous to the current administration.

(b) Applications for admission to a licensing examination including all required fees shall be completed and filed not less than 60 days prior to the examination. When the department finds that the application is complete and that the requirements for admission to an examination have been met, it will issue to the applicant an admission card which will include the date, time and place of the examination and entitle the applicant to admission thereto. If an application is denied or withdrawn in a timely manner, an applicant may obtain a refund of the first registration fee and a partial refund not exceeding fifty percent of the licensing fee. A request for such a refund shall be made in writing. Reapplication after receipt of a refund may be accepted only upon payment in full of all fees specified.

(c) For the purpose of identification for admission to the examination, the applicant shall present the current admission card with a photograph attached and, at the conclusion of the examination, return the card to the department representative conducting the examination. A candidate shall permit fingerprints to be taken during each part of an examination.

(d) Licensing examinations shall be held at times and places determined by the commissioner and conducted under the following conditions. Any candidate violating such conditions may be dismissed from the examination by the department representative, and the examination paper of such candidate shall be deemed a failure. (3) A candidate shall not obtain unauthorized possession of examination materials.

(4) During the examination, no candidate shall give or receive help, or communicate with any other candidate in any way, except upon the express permission of the department representative.

(5) A candidate shall bring into the examination room only such books and other materials as are indicated on the admission card and permitted by the department.

(6) A candidate shall not remove from the examination room any of the materials provided for an examination, and shall not reproduce or reconstruct any portion of the examination or answer paper, or aid in such reproduction or reconstruction by any means, unless authorized by the department. Such materials include examination booklets, individual examination questions, answer sheets or score sheets, instructions and any reference tables or papers which were provided by the department and which may have been used in the course of the examination.

(e) Papers will be scored and candidates notified of success or failure by the department or its designee. If the candidate has failed, the department will advise when and on what basis the candidate may be reexamined.

(f) The passing score in each component of each part of the licensing examination shall be determined as provided by law and shall be computed without rounding. Unless otherwise provided in the regulations pertaining to a specific profession, a candidate may retain credit for examination parts passed for a period not to exceed five years from the examination date. A candidate who is reexamined in a part already passed shall not retain credit for such part from earlier examinations. In those professions which use national or regional examinations, this subdivision shall apply whether or not the examination is taken in the State of New York.

(g) In those professions where reviews of examination papers are permitted, candidates will be allowed to review only those parts of the examination which they failed with a score of 65 or higher, except in those professions which permit candidates to pass on average. A request for review of an examination paper or score may be made in writing to the executive secretary of the appropriate state board not later than 30 days after examination grades are released by the department. Such request shall include detailed reasons justifying the review requested. A candidate shall not remove from the reviewing site any of the materials provided for the review of an examination given previously, and shall not reproduce or reconstruct any portion of the examination or the answer paper, or aid in such reproduction or reconstruction by any means, unless authorized by the department. No one other than the candidate will be permitted access to examination materials. Where examinations are offered under contract with testing agencies, reviews shall be consistent with these contracts, where applicable. All reviews shall be conducted at sites selected and supervised by the department or an authorized testing agency.

(h) After July 1, 1984, an applicant who has been admitted to a professional licensing examination conducted by the department and subsequently fails to appear for such an examination twice shall forfeit any remaining fee credits for that examination. The applicant, upon subsequently applying for readmission to that examination, shall pay all required admission fees.

(b) A licensee not practicing or using a restricted title in New York State or an individual practicing only in a setting which is exempt from licensure in accordance with law may allow registration to lapse without being subject to the late fee set forth in section 6502 of the Education Law, by notifying the department of their cessation of practice or exemption in the state. At such time as the licensee may choose to resume practice or enter practice in a non-exempt setting in New York State, a registration certificate may be issued upon the filing of a proper application and the payment of the required registration fee.

(c) Registration certificates shall be conspicuously displayed by each licensee in each office in which the profession is practiced. In instances where licensees regularly practice at more than one professional office, registration certificates shall be obtained for each office bearing the licensee's name and the exact address of each such office upon making proper application to the department and submitting a fee. 17.5 Consent orders. Disciplinary proceedings conducted pursuant to the provisions of title VIII of the Education Law may be disposed of in accordance with the following procedure:

(a) A licensee who is under investigation, or against whom charges have been voted, who admits guilt to at least one of the acts of misconduct alleged or charged, in full satisfaction of all allegations or charges, or who does not contest the allegations or charges or who cannot successfully defend against at least one of the acts of misconduct alleged or charged, shall notify the executive director of the Office of Professional Discipline or the director's designee.

(b) If the executive director of the Office of Professional Discipline or the director's designee, a designated member of the State Board for the applicable profession, and the licensee agree to a statement by the licensee admitting guilt to one or more of the allegations or charges or setting forth a decision not to contest the allegations or charges or stating that the licensee cannot successfully defend against such allegations or charges and agreeing to a proposed penalty, and if a designated member of the Board of Regents thereafter agrees to such statement and proposed penalty, a written application, signed by all the above, shall be submitted by the licensee to the Board of Regents based upon the statement and proposed penalty consenting to the issuance of an order of the Commissioner of Education effectuating such penalty. With respect to licensees and registrants subject to article 137 of the Education Law,

the agreement of the executive secretary of the State Board of Pharmacy to the statement and proposed penalty and his or her signature on the application shall also be required.

(c) The application shall be in such form and shall contain such substance as is acceptable to the executive director of the Office of Professional Discipline or the director's designee.

(d) In the event an application is not granted by the Board of Regents, nothing contained therein shall be binding upon the licensee or construed to be an admission of any act of misconduct alleged or charged, and such application shall not be used against the licensee in any way. Any such application shall be kept in strict confidence during the pendency of the disciplinary proceeding. In addition, such denial by the Board of Regents shall be without prejudice to the continuance of the disciplinary proceeding and the final determination by the Board of Regents pursuant to the provisions of the Education Law.

17.6 Surrender of license. Disciplinary proceedings conducted pursuant to the provisions of title VIII of the Education Law may be disposed of in accordance with the following procedure:

(b) An application to surrender a license shall be based upon a statement that the licensee admits guilt to at least one of the acts of misconduct alleged or charged, in full satisfaction of all allegations or charges, or does not contest the allegations or charges, or cannot successfully defend against at least one of the acts of misconduct alleged or charged. If the executive director or the director designee, a designated member of the State Board for the applicable profession, and the licensee agree to such statement, and if a designated member of the Board of Regents thereafter agrees to such statement, a written application, signed by the licensee, shall be submitted to the Board of Regents. The application shall be in such form and shall contain such substance as is acceptable to the executive director of the Office of Professional Discipline or the director's designee. The provisions of this section shall also apply to licensees and registrants subject to section 230 of the Public Health Law and to article 137 of the Education Law. With respect to licensees subject to section 230 of the Public Health Law, the agreement of the director of the Office of Professional Medical Conduct or that officer's designee and the Commissioner of Health or his or her designee to the statement, and their signature on the application, shall be required in lieu of the agreement and signature of the executive director of the Office of Professional Discipline. With respect to licensees subject to the provisions of section 230 of the Public Health Law, the term State Board as used in this section means the State Board for Professional Medical Conduct. With respect to licensees and registrants subject to article 137 of the Education Law, the agreement of the executive secretary of the State Board of Pharmacy to the statement and his or her signature on the application shall also be required.

(c) In the event the application is not granted by the Board of Regents, nothing contained therein shall be binding upon the licensee or construed to be an admission of any act of misconduct alleged or charged, and such application shall not be used against the licensee in any way. The application shall be kept in strict confidence during the pendency of the disciplinary proceeding. In addition, any such denial by the Board of Regents shall be made without prejudice to the continuance of any disciplinary proceeding and the final determination by the Board of Regents pursuant to the provisions of the Education Law.

(d) In the event the Board of Regents grants the application, the Commissioner of Education shall issue an order in accordance therewith. The order shall include a provision that the licensee may not apply for the restoration of the license affected by the granted application until at least one year has elapsed from the effective date of such order.

17.7 Violation of probation. (a) Upon the receipt of information indicating that the respondent may be in violation of any of the terms or conditions of respondent's probation, the department shall conduct an investigation.

(b) The executive director of the Office of Professional Discipline shall review the results of the investigation and if the executive director determines that a violation of probation proceeding is warranted, the executive director shall give notice to the respondent, by letter, of the facts forming the basis of the alleged violation of respondent's probation. The respondent, in said letter, shall be requested to indicate whether there is any dispute as to the facts, and shall be informed that if respon-

dent disputes any of the facts the respondent shall be entitled to a hearing thereon.

(c) If the respondent does not dispute the facts forming the basis of the alleged violation of probation, the matter shall be submitted to the Regents Review Comittee for its review and recommendation(s) as to whether, based upon the undisputed facts, there has been a violation of the terms or conditions of respondent's probation and, if so, as to the measure of discipline to be imposed upon the respondent.

(d) If the respondent disputes any of the facts forming the basis of the alleged violation of probation, the respondent shall be afforded a hearing before a hearing officer appointed by the commissioner to hear and make findings of fact, conclusions of law and recommendation(s). The department shall give the respondent at least 10 days' notice of the hearing, 15 if by mail. The evidence in support of the application shall be presented by counsel on behalf of the department and the respondent shall also have the right to be represented by counsel. The department and the respondent have the right to produce witnesses and other evidence, to cross-examine witnesses, and to examine any other evidence produced at the hearing. A stenographic record of the hearing will be made, and the hearing officer shall not be bound by the rules of evidence, but the findings of fact and conclusions of law of the hearing officer shall be based upon substantial evidence.

(e) The report of the hearing officer shall be reviewed by the Regents Review Committee.

(f) The Regents Review Committee shall notify the respondent, at least seven days before its meeting, of the time and place of such meeting, and shall also notify the respondent of the opportunity to appear in person and to be represented by counsel at such meeting.

(g) The Regents Review Committee shall transmit the report of the hearing officer and a written report of its review to the Board of Regents. The final determination shall be made by the Board of Regents, and the commissioner shall issue an order implementing such determination.

(h) The measure of discipline to be imposed for any violation of probation may be to continue the respondent on probation for a period in addition to the period of probation imposed in the original order, or to terminate the probation, vacate the stay of execution, and impose any measure of discipline authorized by section 6511 of the Education Law. A violation of probation shall constitute unprofessional conduct, and may constitute the basis for proceedings under either the provisions of section 6510 of the Education Law or of this Part.

17.8 Hearing panel; administrative officers. Findings of fact, recommendations as to penalties to be imposed, and any other actions taken by a hearing panel in disciplinary proceedings, except as hereinafter set forth, shall be made by majority vote. Any determination of guilt shall require a minimum of a four fifths vote of the hearing panel. An administrative officer, admitted to practice as an attorney in the State of New York, shall rule on all motions, procedures and other legal objections, and draft a report which shall reflect the determination and recommendation of the panel and be subject to the approval of and signature by the panel chairperson on behalf of the panel. The administrative officer shall not be entitled to a vote.

17.9 Summary suspensions. (a) If the executive director of the Office of Professional Discipline or that officer's designee believes that the public health, safety or welfare imperatively requires emergency action against a professional license, certificate, registration, permit or other authorization of the licensee to practice under title VIII of the Education Law, the executive director or the director's designee may make an application, on behalf of the department, to the Board of Regents for the summary suspension of said authorization pending the prompt institution prosecution and completion of formal disciplinary proceedings as provided under section 6510 of the Education Law.

(b) Summary suspension proceedings shall be commenced by the service on the licensee of a notice of hearing and a verified petition. The notice of hearing shall state the time and place or oral argument on the application for summary suspension and the regent designated by the chancellor to hear the matter, and shall include a copy of this rule. The notice of hearing and petition shall be personally served upon the licensee no later than five days prior to the date set for oral argument. If personal service cannot be made after due diligence, the notice of hearing and petition may be served by certified mail, to the licensee's last known address, not less than eight days prior to the date set for oral argument. The petition shall set forth the basis for the application and shall include sworn statements upon personal knowledge and/or exhibits demonstrating probable cause to believe that respondent has committed professional misconduct and that the public health, safety or welfare imperatively requires emergency action to summarily suspend respondent's license. A verified answer and any sworn statements and supporting exhibits may be served by respondent upon the executive director of the Office of Professional Discipline or that officer's designee no later

than two days prior to the date set for oral argument. The executive director or designee may serve a verified reply, together with any sworn statement and supporting exhibits, to the answer no later than the day prior to the date of oral argument. The answer and/or reply may be served by certified mail by mailing to the addressee no later than three and two days, respectively, prior to the date set for oral argument. The petition, answer and reply, together with any sworn statement and supporting exhibits, shall be transmitted at the time of service of each paper to the regent designated to hear the case. Saturdays, Sundays and legal holidays shall be excluded in calculating the periods of time set forth in this subdivision.

(c) At the oral argument, the Office of Professional Discipline and respondent and/or his or her attorney shall have the right to be heard, but no testimony shall be taken and no transcript of oral arguments shall be required. No further papers shall be submitted at the oral argument except by permission of the regent designated to conduct the proceeding.

(d) The regent designated by the chancellor to conduct the proceeding shall submit a written report of his or her conclusions and recommendation(s) to the Board of Regents, which shall determine whether to grant or deny the application for summary suspension. A determination by the Board of Regents granting the application must be based upon a finding that the public health, safety or welfare imperatively requires emergency action.

(e) Any determination of the Board of Regents shall be without prejudice to the department or licensee in any subsequent formal disciplinary proceeding.

GENERAL PROVISIONS FOR ALL PROFESSIONS.

Section 28.1 Determination of good moral character
28.2 Information
28.3 Investigation
28.4 Review
28.5 Hearing
28.6 Appeal
28.7 Reapplication

Section 28.1 Determination of good moral character. The determination of whether an applicant for authorization to practice a profession, under title VIII of the Education Law, is of good moral character shall be made in accordance with the procedures specified in this Part.

28.2 Information. All information indicating that an applicant has been convicted of a crime, or has committed an act which raises a reasonable question as to the applicant's moral character, shall be referred to the executive director of the Office of Professional Discipline or his or her designee.

28.3 Investigation. The executive director of the Office of Professional Discipline, or his or hr designee, shall arrange for a full and complete investigation of the circumstances surrounding such conviction or act. If it is determined that a reasonable question exists as to the applicant's moral character, then the executive director, or his or her designee, shall submit the results of the investigation, including any letters of reference from peers or others which may have been submitted by the applicant, to a panel of the appropriate professional State Board for its review. The panel shall consist of three or more members of the State Board.

28.4 Review. Upon such review, the panel, by majority vote, may conclude in favor of the applicant to the effect that the moral character of the applicant is adequate for licensure, thereby fulfilling that licensure requirement, and the applicant and the director of the Division of Professional Licensing Services shall be notified of such conclusion by the Office of Professional Discipline. If, upon such review, the panel concludes, by a majority vote, that a substantial question exists as to the moral character of the applicant, the applicant shall be notified thereof. Upon the written request of the applicant, within 30 days after receipt of such notice, the department shall schedule a hearing on such question.

28.5 Hearing. The applicant shall be given 15 days' notice, by mail, of the time and place of the hearing and a statement of the matters asserted which raised the question of the applicant's moral character. The applicant may be represented at the hearing by an attorney, may cross-examine witnesses, may produce witnesses, and may present evidence in support of the applicant's good moral character. The hearing, at which a verbatim record shall be taken, shall take place before a panel consisting of three or more members of the appropriate professional State Board, and before an administrative officer admitted to practice as an attorney in the State of New York, designated by the department. Such administrative officer shall have authority to rule on all motions, procedures and other legal objections, but shall not be entitled to vote in the determination of the panel. The determination of the panel shall be made by a majority vote of the panel and shall be rendered in a written report which shall be drafted by the administrative officer, shall reflect the determination and recommendations of the panel, and shall be subject to the approval of and signature by the panel chairperson on behalf of the panel. Copies of the report shall be forwarded to the director of the Division of Professional Licensing Services and to the applicant.

28.6 Appeal. The applicant or the executive director of the Office of Professional Discipline may appeal the

determination of the panel concerning the licensure requirement of good moral character by filing a written notice of appeal therefrom with the Committee on the Professions within 30 days after service of the report of the panel upon the party taking the appeal. In the event no appeal is taken from the determination of the panel, the determination of the panel shall be final. In the event either party appeals from the determination of the panel, the appellant may submit a brief to the Committee on the Professions and the opposing party within 30 days after filing the notice of appeal. An answering brief may be filed by the opposing party with the Committee on the Professions within 20 days after the receipt by the opposing party of the brief submitted by the appellant. The Committee on the Professions may affirm, reverse or modify the determination of the panel and/or make such other determination as it may deem just and proper under the circumstances. The determination of the Committee on the Professions shall be final and copies thereof shall be forwarded to the applicant and to the executive director of the Office of Professional Discipline.

28.7 Reapplication. Whether or not the applicant appeals from the determination of the panel, the applicant may reapply for licensure to the director of the Division of Professional Licensing Services after the expiration of 18 months from the date of service of the report of the panel.
